BD 0443 received on May 31, 1938. Suffering...

The suffering of people can cause such strong turbulences of the soul that days pass until it is freed from the effects, and then the fate of this soul is a struggle for strength. Do not forget, you people on Earth, that you can significantly contribute to moving yourselves in balance of your feelings if you always keep in mind this state of the soul that causes you pain and suffering.

In the excitement of humans, immediately malevolent forces take hold of them and seek to stoke all hatred and bitterness to lead the soul of humans as far as possible from its current path... And only prayer for help from these temptations weakens their power. Every minute of your life should serve to free yourselves from the control of these forces by constantly practicing courage, humility, and patience.

But those who allow themselves to be carried away by their passions do not pay attention to this... They will only have to struggle again to return to the former state, which they will succeed in with good will, but it will still only bring the soul a step back. Therefore, try first to rid yourselves of all selfishness... to swerve all temptations that come to you with courage and thus escape from them... for how small are the causes to great deviations of the soul...

To each earthly power is given the authority to rule according to its own discretion... if its actions are not good and wise, it will have to answer for itself in the end, but you, who are subject to this power, follow everything with all your strength... so in such obedience, blessings will still come to you, and you will also be able to cope with what is required, if you beseech the Lord for the necessary strength. The Divine is always concerned about you and intervenes to help where you ask for assistance.

Earthly law must remain a guideline as long as it does not violate the commandments of God and the entire divine order. Because then, the Lord Himself will intervene to judge and uplift all those who go astray. The voice of the Lord is penetrating and will come into effect when the time is right, but you, who walk on Earth, adhere to the commandments of God, and it will be easy for you to fulfill everything and comply with what is demanded of you on Earth...

Amen
